

The Circle of Life

The life of a human

As easy as a pea

Eyes move like spies

Lips move quicker than a clip

Arms move like a jellyfish in the sea.

The circle of life

Swirls round and round

Cracks and curls

Around the world

A never ending Cycle.

The life of a Bear

As furry as a bee

Paws with sharp claws

A mouth with sharp teeth

Bears like to climb trees

And they like to eat honey.

The circle of life

Swirls round and round

Cracks and curls

A never ending story.

The life of a cat

As cute as a bird

Jumping around

Without a care in the world.

A new prediction

An ending world

A meteor
All might and old
It rushed down to Earth
And created a mighty, old blip.
The circle of life
The end is here
Nobody can live
Nobody can be here
Maybe in another world
The end won't be near.
